1. INTRODUCTION

The Upper Hunter Wonnarua Council were involved in an Aboriginal and Archaeological Heritage Survey for a proposed Open Cut Coal Mine Extension by Muswellbrook Coal Company.

This coal mine has been in active service for almost 100 years and would be one of the oldest coal producers in the Hunter Region.

Our information about this mine came when we questioned the Project Manager about this proposed project.

As far as we know the Local Aboriginal people living close to this area where either removed or forced away by the Local Authorities in the early 1900's to live in Government Institutions such as the Aboriginal Missions etc.

The understanding is that any Aboriginal person in particular the Wonnarua people living within this area would have had to cease their Traditional Way of Life at least 40 years before the mining started. Memories of their Traditional Lifestyles would have been still fresh within the adults still living at the time.

The Local Wonnarua people living today claim that the Upper Hunter Region is apart of the Wonnarua Language Group Area, in which the Coal Mine Extension is being proposed.

Therefore most Aboriginal Relics or Material located would be of Wonnarua Manufacture, or made by Traditional Living wonnarua people.

Members of the Upper Hunter Wonnarua Council are the living Descendants of these people and this is our connection and reason why we are involved in this type of work.

This Cultural Heritage report will be done in accordance within the National Parks and Wildlife Service Standards for Aboriginal Consultants and will meet all the requirements under this State Heritage Legislation ACT.

The Upper Hunter Wonnarua Council have the following objectives:

- Effective Survey of Study Area
- Identification of all Aboriginal Sites.
- To meet all requirements of the NPWS ACT
- Help in the management of any affected Aboriginal Sites

COMPLIES WITH THE NPWS ACT AND EP & A ACT.

NATIONAL PARKS AND WILDLIFE SERVICE ACT 1974

The (NPWS Act 1974) provides Statutory protection for all Aboriginal Relics under Section 90 of the Act and for Aboriginal Places under Section 84.

The protection provided to the Aboriginal Relics etc. applies to all sites, irrespective of the level of significance or land tenure. Areas can be gazetted as Aboriginal Places if the Minister is satisfied that sufficient evidence exists to demonstrate that the area was or is of special significance to the Local Indigenous Community.

Although all Relics and Aboriginal Places are protected under the current wording of section 90 it is only an offence to damage or destroy Relics or Aboriginal Places if it is done knowingly. While this may be subject to legislative revision, it needs to be noted that the NPWS Act does not set up any formal mechanisms for ensuring that areas with the potential to contain Aboriginal Sites or Places of Special Significance area assessed prior to impacts on those areas. The EPA Act fulfils this role.

ENVIRONMENTAL PROTECTION & ASSESSMENT ACT

The Environmental Planning and Assessment Act 1979 and it's regulations, schedules and associated guidelines requires that environmental impacts are considered in land use planning and decision making. Environmental impacts are interpreted in NSW in the broadest sense, including impacts on Aboriginal Cultural Heritage. The EP & A Act has three main parts of relevance to Aboriginal Heritage:

- Part (3) governs that preparation of planning instruments:
- Part (4) relates to development assessment process for local Government (Consent Authorities) and
- Part (5) relates to activities and approvals by Government (determining) Authorities (NPWS 1997:1).

1.1 DESCRIPTION OF THE SURVEY AREA

The landscape of the study area is mainly Ridge Crests, Steep Hill Slopes and Low Order Streams and Deep gully's.

There is quite a bit of surface disturbance in some areas.

The Top Soil is highly eroding and skeletal in most parts. There is a section that has been fence off due to subsidence. This area was not inspected due to the danger of falling into one of these cracks ie cave ins.

There are dams located around the area and the grass is quite high in these places making visibility around 50% across the area.

Iron Barks are the most predominant species of tree as well as the Spotted Gums.

The landscape has a good visual amenity, but would be little use for agriculture except for cattle and sheep grazing.

1.2 DESCRIPTION OF IMPACT

The proposed Open Cut Extension would affect an area of 93 hectares divided into Extension Areas A and B.

In Coal Mining terms this Extension is rather small in comparison to other company's operating within the Upper Hunter Region.

The Open Cut impact would only last a short 8 years and would cease coal mining some time in 2010.

Although Open Cut Coal Mining is the most destructive form of mining, the landscape in which they are working in is not prime agricultural or grazing country, therefore the Upper Hunter Wonnarua Council is not greatly alarmed by this project

2. QUALIFICATIONS

QUALIFICATIONS

The Wonnarua people have fully endorsed the consultant Mr. Victor Perry to act as independent consultant on behalf of the traditional owners and to provide input from the local Koori people.

Victor Perry has already completed 30 reports on behalf of the Wonnarua People;

1998

- * Hunter Valley Mine - The Mining of Site 37 - 5 - 63
- * Ethno historical Report for Bengalla Mine
- * South Lemington Opencut Mine Extension

1999

- * Lower Hunter Water Pipeline
- * The Olive Fruit Processing Plant
- * Mt Thorley Cultural Heritage Assessment
- * DLWC Merriwa River, Coulsons Creek Bank Rehabilitation Works

2000

- * Carrington Mine Cultural Heritage Assessment
- * Ellerston Property Cultural Heritage Assessment
- * Inglewood Vineyards Pty Ltd Cultural Heritage Assessment
- * Broke Water Pipeline Cultural Heritage Assessment
- * AGL Gas Main Extension Cultural Heritage Assessment
- * DLWC Wallis & Nerone Creeks Cultural Heritage Assessment
- * Lot 1 DP 628392 Sub-division Cultural Heritage Assessment
- * Mt Owen Mine Water Storage Dam Cultural Heritage Assessment
- * Hunter Valley South Pit Extension Cultural Heritage Assessment
- * Highfield Way Sub-division Cultural Heritage Assessment
- * Dartbrook Extended Cultural Heritage Assessment

2001

- * Jerrys Plains Coal Terminal Rail Spur cultural Heritage Assessment
- * Cumnock No1 Coal Extension Cultural Heritage Assessment
- * "Poggy" Merriwa Sand Quarry Cultural Heritage Assessment
- * DLWC Disaster Relief Isis, Pages & Hunter Rivers
- * Liddell Extension Cultural Heritage Assessment
- * Klaudios Sand & Gravel Quarry CHA
- * Ashton Mine Cultural Heritage Assessment
- * Drayton Coal Lease Renewal Cultural Heritage Assessment

2002

- * Dartbrook Mine Kayuga Access Slot Cultural Heritage Assessment
- * DLWC South Arm Wollombi Brook & Stockyard Creek CHA
- * Redbank II Power Station Cultural Heritage Assessment
- * Singleton Army Base Rehabilitation Cultural Heritage Assessment

Victor Perry

- NATIONAL PARKS AND WILDLIFE SERVICE
Victor Perry has worked in partnership with the NPWS in relation to protection and management of Wonnarua Heritage and Culture during the past 19 years.
- FIELD EXPERIENCE
Victor Perry has over nine year's practical experience working for the Local Aboriginal Community on Aboriginal Archaeological Site Surveys and Salvage Excavations. Mr Perry has worked with consultant archaeologists including Haglund, Rich, Baker, Kuskie, Ruig, McDonald, Stuart, Keottig, McDonald, Nightingale, Lee, Kelly and other well known archaeological consultants in the Hunter Valley.
- WONNARUA CULTURAL HERITAGE
Victor Perry gained Aboriginal Cultural training through his families knowledge of Aboriginal history and customs. This knowledge and its associated customs have been passed down through the generations.
- WONNARUA SITES MANAGER
Victor Perry has been endorsement from the present day Wonnarua Aboriginal People and Native Title Claimants in the Hunter Valley. Victor Perry currently holds employment with the Upper Hunter Wonnarua Council as the Aboriginal Sites Manager.
- WANARUAH LOCAL ABORIGINAL LAND COUNCIL MEMBER
Victor Perry worked with the Wanaruah Local Aboriginal Land Council for three years. During this time he managed the Wanaruah LALC Aboriginal Heritage Unit.
- **BARRY FRENCH**
Barry has worked as a field assistant for the past 18 months with us and he has also worked for the Wanaruah Land Council.

COMMUNITY ENDORSEMENT

The Wonnarua people fully endorse Victor Perry to carry out Cultural Heritage Assessments within their tribal boundaries.

Cultural Heritage is gaining recognition compared to archaeology or scientific studies and the local communities are best placed to undertake these surveys.

In this way Aboriginal people become the Consultant for their Heritage, for their people.

KNOWLEDGE AND HERITAGE LEGISLATION

Victor Perry has a working knowledge of the Heritage Legislation (NPWS Act 1974) Section 90 which provides statutory protection for Aboriginal Relics, states that it is an offence to damage or destroy Aboriginal Relics without the Minister's Consent. The Environmental Planning and Assessment Act 1979 (EP & A Act) provides regulated guidelines to assess the environmental impact that developments would have on land and water etc. The EP & A Act also incorporates impacts on Aboriginal Heritage, within it's guidelines

3 ABORIGINAL CULTURAL VALUES ASSESSMENT

The Wonnarua people consider that all Sites within their Traditional Homeland are of High Importance and are in need of proper care and protection.

The land and water running through it are the lifeblood of their culture. The hills and plains, the forest and mountains provided people in past generations with the resources needed to survive.

Camping and tool making sites found today remind people of their forefathers, the original inhabitants of the land.

The Wonnarua wish to protect their history and culture wherever possible, and maintain a connection with the land by providing recommendations in regards to Wonnarua Koori Heritage. The land and its stories were passed down from father to son over 200 generations before the arrival of Cook from England.

According to Tribal Law the local family group of Wonnarua people were obligated to maintain and protect this part of the Country. The Wonnarua people of today are still obligated to care for the environment as their ancestors did in the past, although they can no longer enforce traditional law for its protection.

Aboriginal Cultural Assessments can look at many things. Local Aboriginal people are attached to the land through physical, spiritual and visual connections.

Important areas include any combination of certain Aboriginal Cultural Places such as Bora Grounds, Spiritual Teaching Areas, Stone arrangements, Traditionally visited Camping Areas, Dreamtime Sites and Song Lines as well as Sacred Trees for Ceremonial and War Shields, Cultural Assessments includes consideration of all these things

At this point in time, in the Central Lowlands and the Upper reaches of the Hunter Valley, three thousand (3000) Wonnarua Cultural Sites have been destroyed by open cut mining, which means that the remaining Sites are becoming rare and more valuable to the community.

4 DOCUMENTATION OF CONSULTATION

The Central Lowlands of the Hunter Valley Region are the locally recognized as falling within the influence of the Upper Hunter Wonnarua Council as well as the Wanaruah Local Aboriginal Land Council.

Both of these groups were involved in the consultation process as well as two other Aboriginal groups who did not have people involved in this field assessment.

The Upper Hunter Wonnarua Council have been recognized in the past as the Primary Group of Local Traditional Owners, now we have to compete with 3 other Aboriginal Groups for recognition in the Local Aboriginal Heritage Management Issues.

We believe that this is wrong and that sooner or later the consultation process will fall into a large Legal Mess.

The

National Parks and Wildlife Service has an internal Policy that recognizes the Traditional Indigenous people are the Rightful Owners of their Cultural Heritage Information and that all developers within New South Wales should consult with these Aboriginal people on all aspects of Sites Management ie the Upper Hunter Wonnarua Council.

The Upper Hunter Wonnarua Council members have been the only group involved in Aboriginal Heritage Issues over the past 15 years in one way or another and we also employ some 26 Local Aboriginal people from the Upper Hunter Valley.

The Upper Hunter Wonnarua Council believes that the Right people with Local Connections and Knowledge have been consulted in regards to this proposed development.

5 METHODOLOGY

5.1 PRE-FIELDWORK

The Upper Hunter Wonnarua Council were contacted by Vanessa Hardy and Meaghan Russell, both consulting archaeologists for HLA Envirosiences and asked to be involved in the Muswellbrook No 1 Open Cut Extension Development Archaeological Survey.

Our understanding is that we would be involved in a Field Assessment and then provide an Aboriginal Cultural Heritage Assessment including Management and Recommendations of Heritage Material which is the normal work for our group..

A National Parks and Wildlife Service Minark Data Base Search of all listed Aboriginal Sites within the Muswellbrook and Aberdeen Areas has been arranged and will be included in the **Table**

5.2 FIELDWORK

Mr Barry French, field assistant and Victor Perry, Cultural Heritage Manager of the Upper Hunter Wonnarua Council were involved in the Field Site Inspections during the 11th and 12th of December 2001.

Vanessa Hardy and Meaghan Russell, consulting archaeologists from HLA Envirosiences were in charge of the survey.

The Wanaruah Local Aboriginal Land Council sent Bev Van Vliet and Steve McGrady to help with the inspection.

The survey area was inspected by vehicle and on foot. We sampled the whole area looking at all the landscape units.

As stated in proceeding chapters the landscape of this Region is hard, undulating and rocky in places.

Parts of the study area have been mined and rehabilitated, these areas are close to the works office.

Visibility ranged between good and bad depending on what area you looked at.

A small amount of Aboriginal Stone Objects were located and recorded mainly of Low Density and all found on the surface in eroded or disturbed areas.

THE RECORDING OF SITE M 1

GULLY FEATURE INSIDE STUDY AREA

7 RESULTS

7.1 DOCUMENTING WHAT WAS FOUND

During this field survey our group located and recorded 5 Aboriginal Sites or Relics.

4 of the Sites are in areas where individual or small scatter groups of people sat down and made Artefacts or Tools, the 5th Site is a Scarred Tree.

All of the people involved made their own recordings etc.

The Sites are in all different locations across the study area. Visibility has played its part in some areas which makes locating Artefacts difficult.

In my opinion there is a Low Terrace Area that would have a P.A.D which was found where Site M 1 was recorded, the rest of the recorded Sites are in poor condition where the soil structure has disappeared.

No other Relics were located inside the extension zone.

The consulting archaeologists will be filling out the relevant National Parks and Wildlife Service Site Cards as well as sending them in to National Parks for recording.

7.2 DOCUMENTING SIGNIFICANCE TO THE ABORIGINAL COMMUNITY

According to the National Parks and Wildlife Service Policy, Aboriginal Elders or community groups are included in the recording and management of Aboriginal relics with the state of New South Wales.

In New South Wales Aboriginal Cultural Heritage Sites have been mainly assessed by the Local Aboriginal people through the NSW Aboriginal Land Council structures.

Over the past years, since Native Title or the Mabo Legislation, Traditional Owner Groups or Aboriginal people with Tribal Links to the land have now been involved in Aboriginal Cultural Heritage Assessments. They are also voicing their opinions and making decisions on our own Heritage Sites based on Traditional Historical and Cultural Connections.

The significance of the site or area is mostly determined by the values placed upon it by the Local Aboriginal Community.

In this part of Australia the Wonnarua Tribal people are known as the Traditional Land Owners before the European Settlement.
The Wonnarua people value their heritage as tangible links with the lifestyles and values of their ancestors.

The main aim of Cultural Heritage Management should be the Conservation and Protection of Aboriginal Heritage Sites which include the Landscape within the area.

Because this survey has only unearthed 5 new Camping Sites does not mean that these recorded sites within this area are of little value to the Aboriginal people living in today's society.

Aboriginal Sites and Places are still important to today's generation of people, therefore these areas still need protection.

8 RECOMMENDATIONS

The following Recommendations are based upon on all the information provided to us by the E.I.S Company and our own understanding of the project both viewed first hand in the field and by written correspondence through the archaeologists draft report.

1. Recommendation

That the Upper Hunter Wonnarua Council has no objection to this development extension in the current form, but if there are any changes to the development then the Upper Hunter Wonnarua Council should be informed and involved in any further Planning Proposals.

2. Recommendation

The Upper Hunter Wonnarua Council have no objection to supporting Consent to Destroy for 4 Aboriginal Sites within this development Sites M 2, 3, 4 should be collected by the Upper Hunter Wonnarua Council.

In regards to Aboriginal Site M1 the Upper Hunter Wonnarua Council believes that an Aboriginal Salvage should be conducted within this area as we believe that there is potential to relocate further Aboriginal Relics within this area.

A Plan of Management should be done by the Upper Hunter Wonnarua Council to Salvage this area and that the costs of the project must be paid for by the developer before coal mining or any other pre-stripping of the top soil begins in this area.

The Upper Hunter Wonnarua Council would be applying for a Care & Control Permit from the National Parks & Wildlife Service to keep the Artefacts located.

3. Recommendation

The Upper Hunter Wonnarua Council would not support a Consent to destroy for the Scarred Tree until further Archaeological Evidence has established that this tree is an Aboriginal Scarred Tree.

The Upper Hunter Wonnarua Council would like to be present during any future inspections of this tree.

**RE: LETTER of ENDORSEMENT for MR VICTOR PERRY
as our WONNARUA CULTURAL HERITAGE CONSULTANT
for OUR TRADITIONAL WONNARUA HOMELAND.**

To Whom it may concern

The Koori Consultant, Mr Victor Perry is fully endorsed by the Koori Community as our Wonnarua Cultural Heritage Consultant.

The Wonnarua Tribal Council as the Traditional Land Owners and the Native Title Clamant Group, who's membership is made up from the Wonnarua Koori people from across the Hunter Valley, fully endorse the actions of Mr Victor Perry as our Cultural Heritage Consultant.

Mr Perry plays an active role in the Koori Community as our Cultural Heritage Consultant and has done so over the past 10 years.

Rhoda Perry (Elder)
Executive Director
Wonnarua Tribal Council Inc

Tom Miller (Elder)
